

Costume Plot

Instructions

List characters and scenes:

Use the production's scene order and the script's character names. Add a row for every costume state, not only a character's first appearance.

Describe the full look:

Record garment, footwear, accessories and any continuity details. Note preset location and the person responsible for dressing or assisting.

Mark transitions in rehearsal:

Time changes during runs, note what can be preset, and flag changes that need a dresser or an alternate route. Update the plot after every approved costume change.

Production details

Production: _____

Designer / wardrobe lead: _____

Version date: _____

Script / scene reference: _____

Add a separate row for every look or change. Keep sensitive sizing information in a separate, access-limited record.

Character	Act / scene	Entrance / cue	Costume pieces	Footwear & accessories	Change from / to	Preset / quick-change location	Dresser / owner	Continuity & laundry notes
